

European Vacation

Change ruffles feathers

Experience builds confidence.

Choose the right location.

Choose the right strategy.

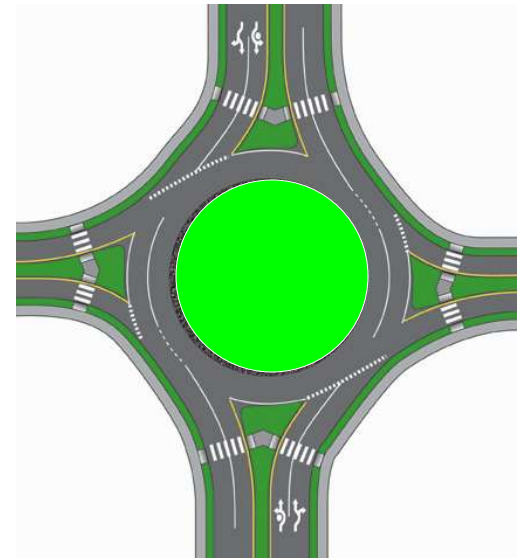

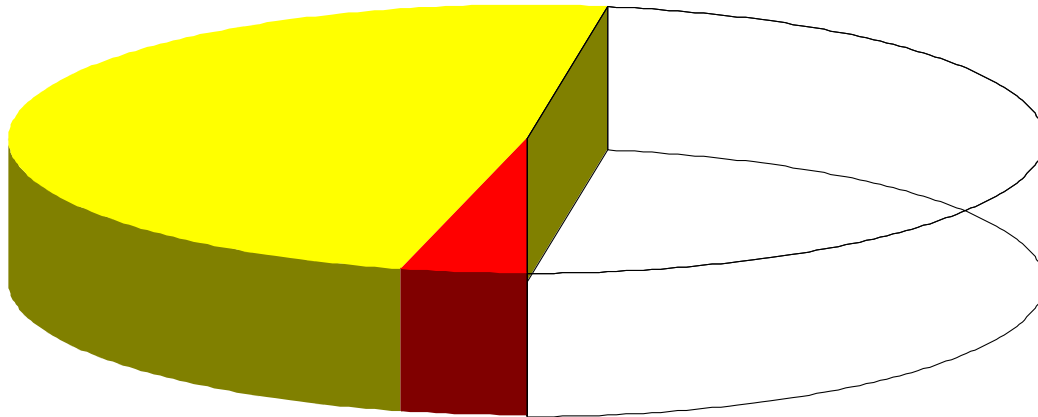

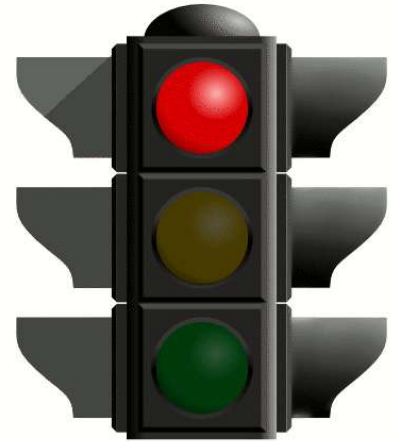

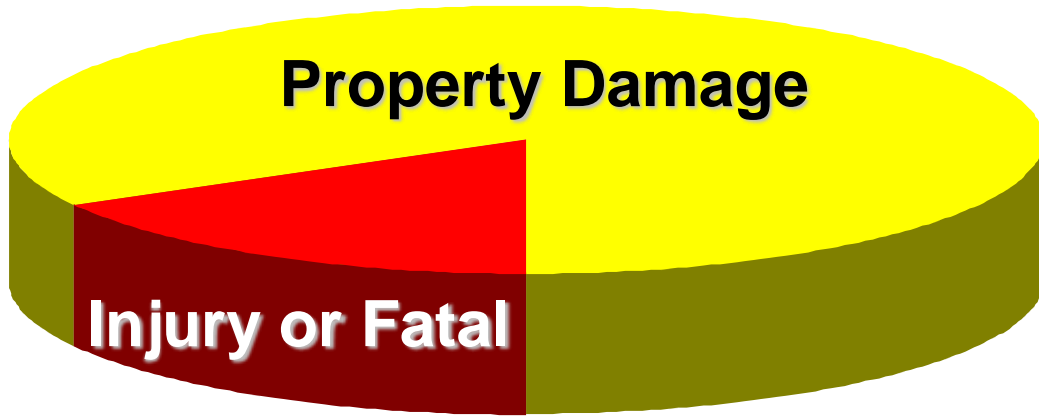

Choose the right designer.

Location, location, location.

Solve an obvious problem

**World's
Greenest
Intersection**

If ...

A 3D rendered chessboard with golden pieces on a checkered surface. The pieces are arranged in a strategic formation, with a king and queen in the center, and various other pieces like knights, bishops, and pawns positioned around them. The lighting is dramatic, casting long shadows and highlighting the metallic texture of the pieces.
