Mini-session, networking & conversations (Stick around and meet with presenters, including Idaho funding possibilities, Idaho Brownfields Peer Group – with Claire Weston, CCLR, and more)
Redeveloping Idaho’s Brownfields.
Northwest Environmental Business Council is pleased to present a one-day brownfields conference. This conference will deliver an exceptional learning and networking environment for those working to make contaminated properties economically viable for reuse.

Bringing together a cross-section of stakeholders, attendees will learn what it takes to successfully bring a project to completion.

Real Examples & Practical Learning.
This one-day event provides both long-time professionals and novices with insight into the brownfields redevelopment process from start to finish, along with the knowledge of how to find and manage critical resources for each step of a project. The agenda includes several Idaho case studies as well presentations from Idaho DEQ, US EPA, Idaho tribes, and more.

Who Should Attend?
Are you in the brownfields industry or are part of a locale with a brownfields site? Are you looking to revitalize your community, spur economic growth, restore the local environment, and protect the public health? If so, plan on attending the 2021 Idaho Brownfields Conference.
